Home Group Virtual event

Awareness event

14 June	Start of learning disability week	All day
21 July	<p>A guide to housing community services to support NHS and Local Authority demands</p> <p>We will look at our physical and mental health community models in more detail. We will discuss live case studies, together with, examples of services which are supporting our customers in their home or in the community to prevent the need for hospital admission or support earlier discharge from wards. We will review how these services were commissioned and how you could develop these within your area and improve your specific targeted outcomes. There will be time for questions and answers and sharing best practice so please do come along with any questions you may have.</p>	11.00 – 12.00
24 July	The Big Listen (Samaritans awareness)	All day
20 September	<p>Case Study: A trust wide integrated health and housing model to help reduce pressures on inpatient mental health services.</p> <p>This session will look at how Cumbria, Northumberland, Tyne and Wear NHS Trusts worked in partnership with Home Group to develop a housing support service for individuals with mental health that reduced avoidable secondary care admission, reduced unnecessary delayed discharge and enabled more individuals to access the housing and support that they needed within the community. We will look at where the need for the service came from, how the model was set up and implemented and the story so far, with specific focus on impact to customers as well as financial savings generated.</p>	11.00 – 12.00
10 October	World Mental Health Day and World Homeless Day	All day

20 October	<p>Preparing for winter pressures</p> <p>This session will provide case studies of those organisations we have worked in partnership to produce cost savings and efficiencies utilising winter pressure funding. We will review the types of service models, costings, implementation timeframes and commissioning routes. We will have a commissioner present with some of our operational team who will share the successes and lessons learned. There will be time for questions and answers and sharing best practice.</p>	11:00 – 12:00
29 November	<p>Creating a holistic homeless pathway</p> <p>This session will look at our homeless and housing first service offer. We will focus on our innovative complex homeless service in Newcastle where we have added clinical infrastructure to provide enhanced support, talking through the impact this has had on individuals within the service, existing team members, the local authority and health trust, as well as wider society. We will also talk through how we take a different approach to housing first to help better support individuals with complex needs .</p> <p>Looking at how housing providers can work in partnership with health to help reduce bed pressures, delayed discharges and the associated cost. The session will include a look at some of our innovative solutions to support with bed pressures. With a specific focus on understanding the problem and how trusts can identify the right, and wrong, solution for their region.</p>	11.00 – 12.00
3 December	International Day Of Persons With Disability	All day
